Fyi....

The April 6, 2015 TUCP Order included the following condition:

1.b.iv. In consultation with the Department of Fish and Wildlife, NMFS, the U.S. Fish and Wildlife Service (collectively fisheries agencies) and State Water Board staff, Reclamation shall prepare a plan to reasonably protect fish and wildlife on the Stanislaus River at the March 99 percent hydrologic exceedance level. The plan shall identify needed storage and flow levels for the protection of fish and wildlife throughout water year 2015 going into water year 2016 to ensure adequate temperature and water quality conditions for salmonid species inhabiting the Stanislaus River, including how those conditions will be achieved. The draft plan shall be submitted to the Executive Director and fisheries agencies for comment by April 15, 2015. A final plan shall be submitted to the Executive Director by April 25, 2015. Reclamation shall implement the approved plan and any changes directed by the Executive Director necessary to reasonably protect fish and wildlife.
